

Elderly Nursing Room

Wallpaper Catalog

About

The key is to make the area as **comforting, accessible and user-friendly** as possible. That is why bright and relaxing wallpapers are absolutely necessary.

The use of colour and decoration details in the interior spaces is an important way to highlight the different spaces and an aid to orientation for the elderly or Alzheimer's patients.

HONPO has one of the most extensive range of relaxing wallpapers available for elderly nursery room ideas, find your favorite one from our **Nature to Minimalist** design collections.
