Châtelaine III

Châtelaine III

Elegant, chic and utterly stylish in any home, the Châtelaine III collection is moving in with us right away. A delicate stripe is an essential part of the look, along with sophisticated ornamentation that exudes charm and class. On-trend floral elements also feature – a must-have in current interior design. It has a cosy yet fabulously airy feel thanks to pale shades like off-white, powder or soft grey. The natural wallcovering texture gives the hues greater vibrancy and depth. To top it all off, there's a touch of modern glam in the form of fine golden and silver accents, which conjure up shimmering highlights for us day after day.
