The windows offer a glimpse at progress seeking to overtake the past. Looking out, you can see that man has lost the battle with nature here. This mural will give you depth, view, and perspective to a room without a garden view.

Mischievous Monkeys

This wild meadow is inspired by stories of journeys – long and dangerous – and by the dream of finding a place to call home at their end. The mix of flowers in this pattern creates a riot of color, and this wallpaper can be used throughout a room to produce a springtime meadow of your very own.

Blooming

The breathtaking beauty of flowers in full bloom is delightfully perceived in this classic oil painting. Giving the illusion of an old oil painting, the colors have dried out creating charming cracks that run decadently over the canvas. This statement wall mural is grandiose and irresistible at the same time.

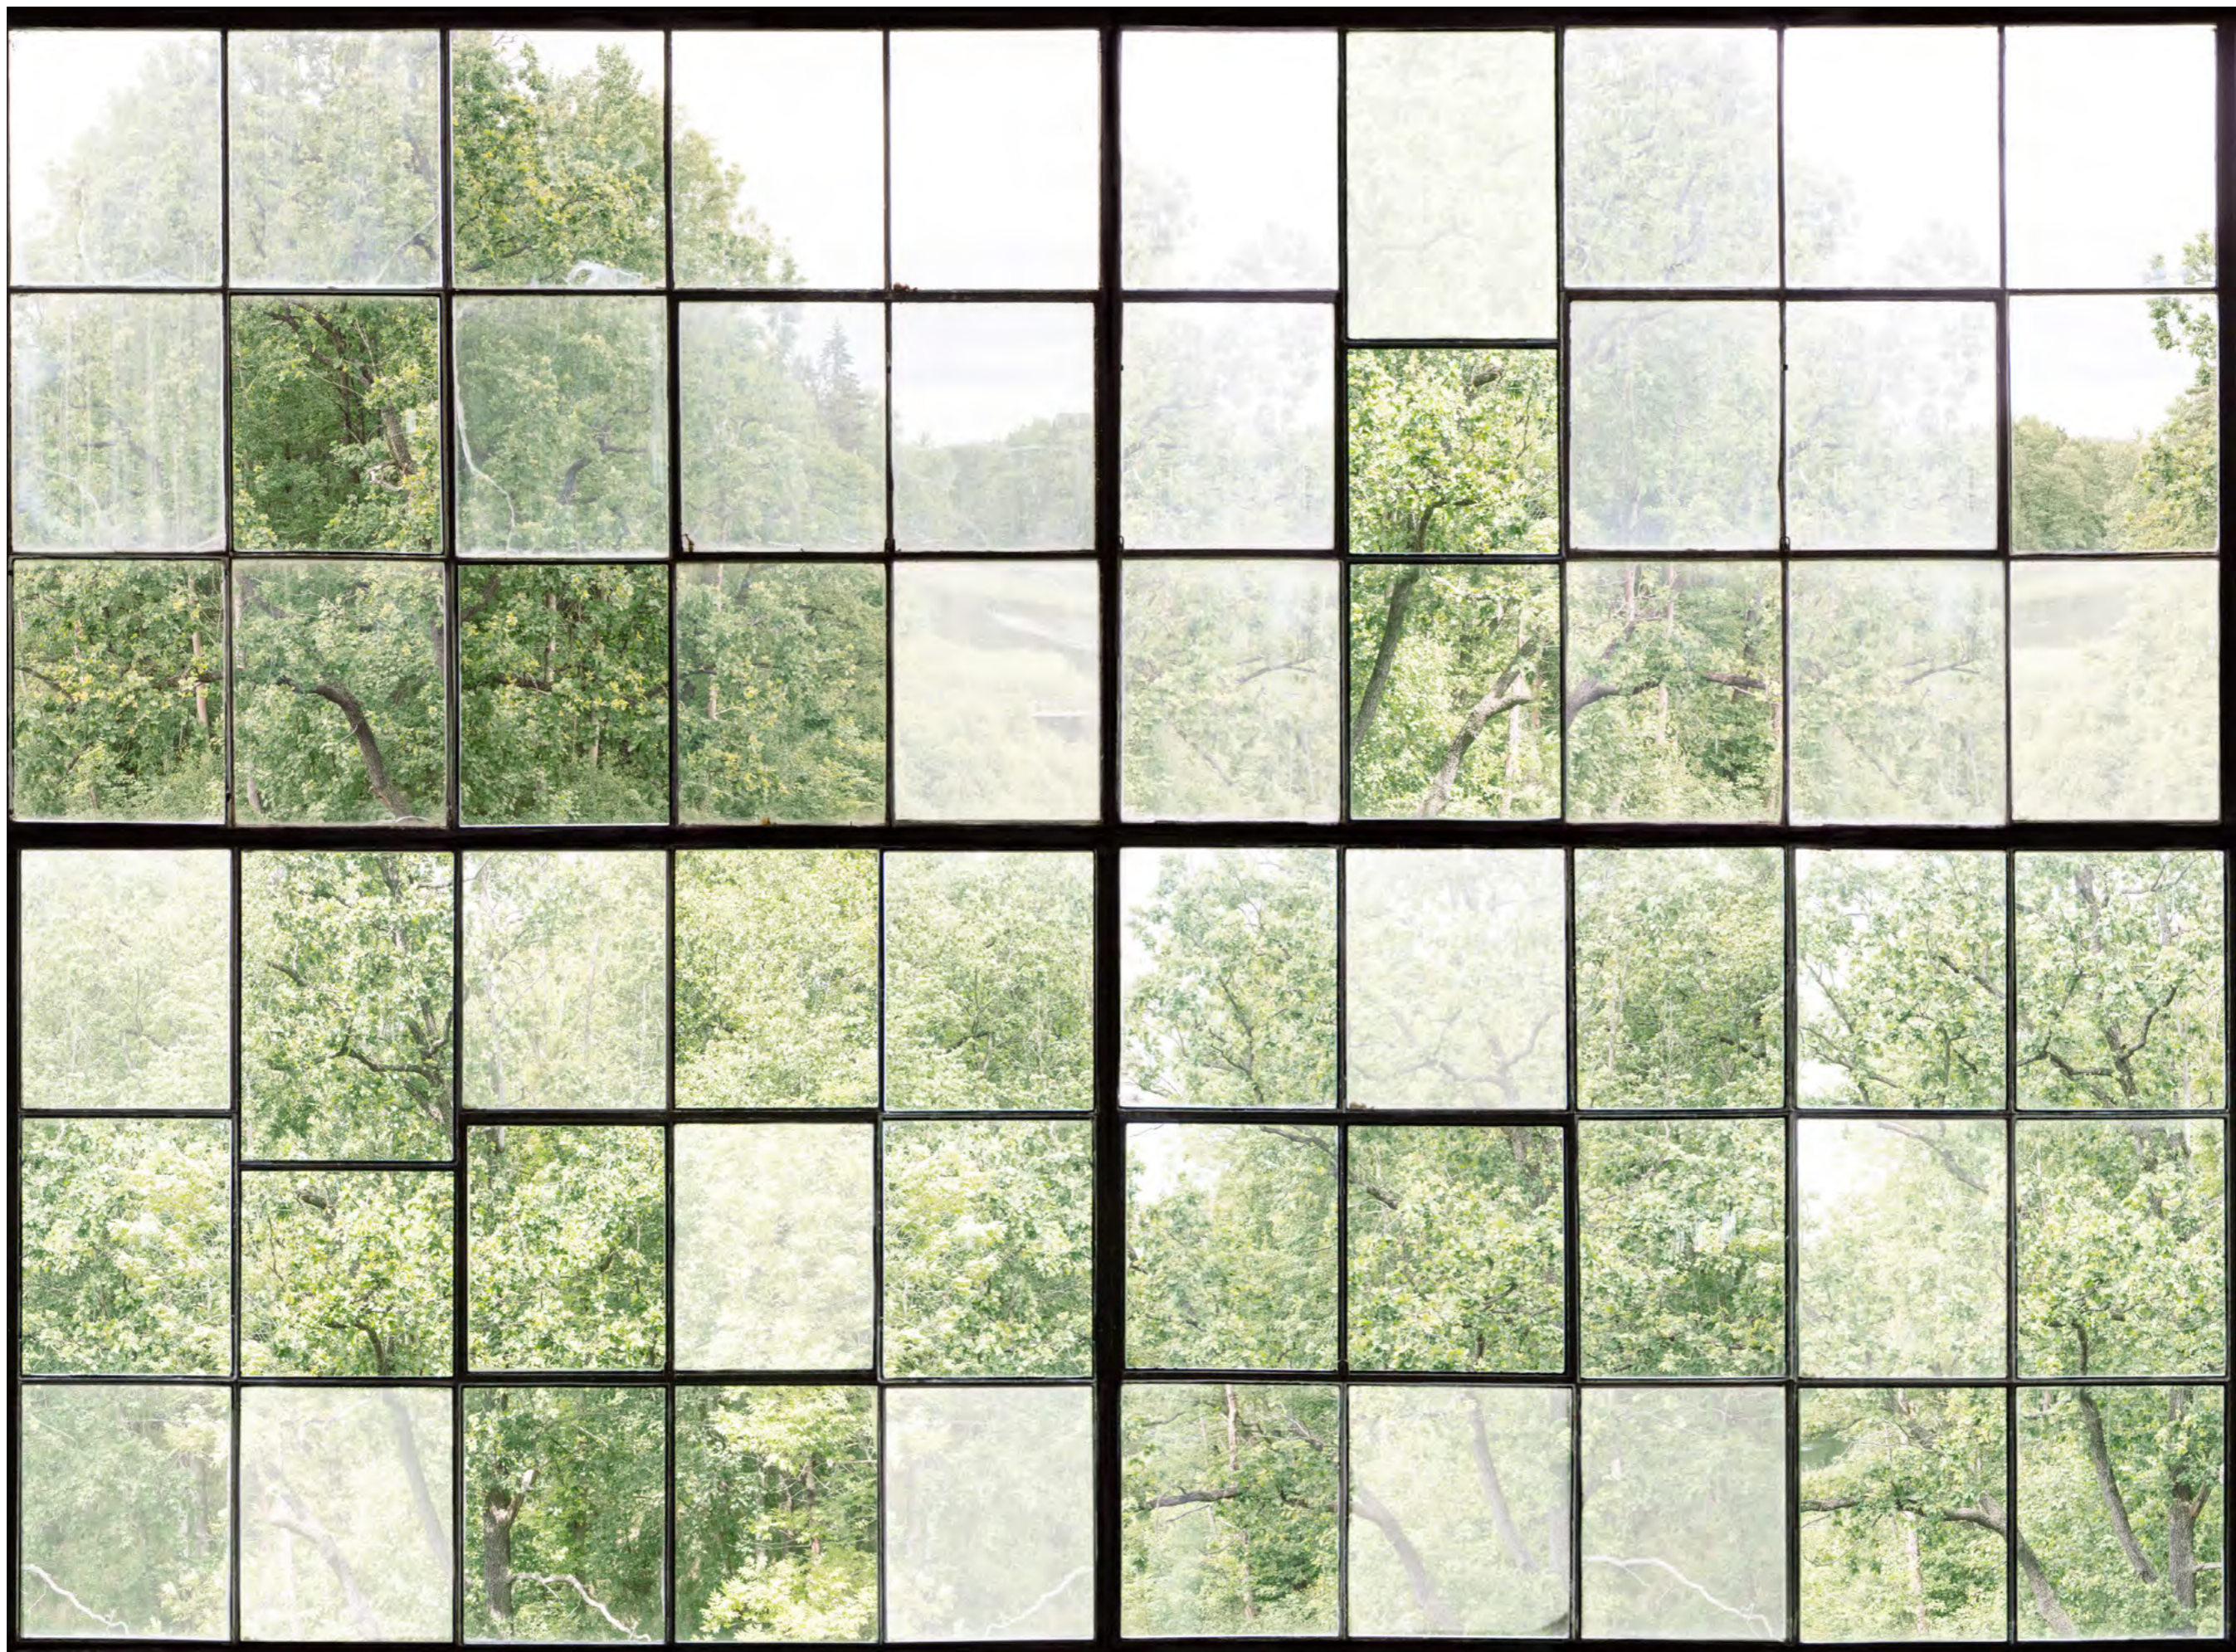

R15391 

Factory Window

These are windows from an old textile factory – some of them are old, from the factory's glory days, and some are new, installed to keep out the rain. This wall mural will give you depth, view and light to a room without a garden view.

R14381 

Leaf Love

Green is said to be the color that the human eye can determine the most shades out of, that is – the richest color! Create a lush green corner of your home with this courageous mural. A diagonal grid runs across the motif for a softer expression.

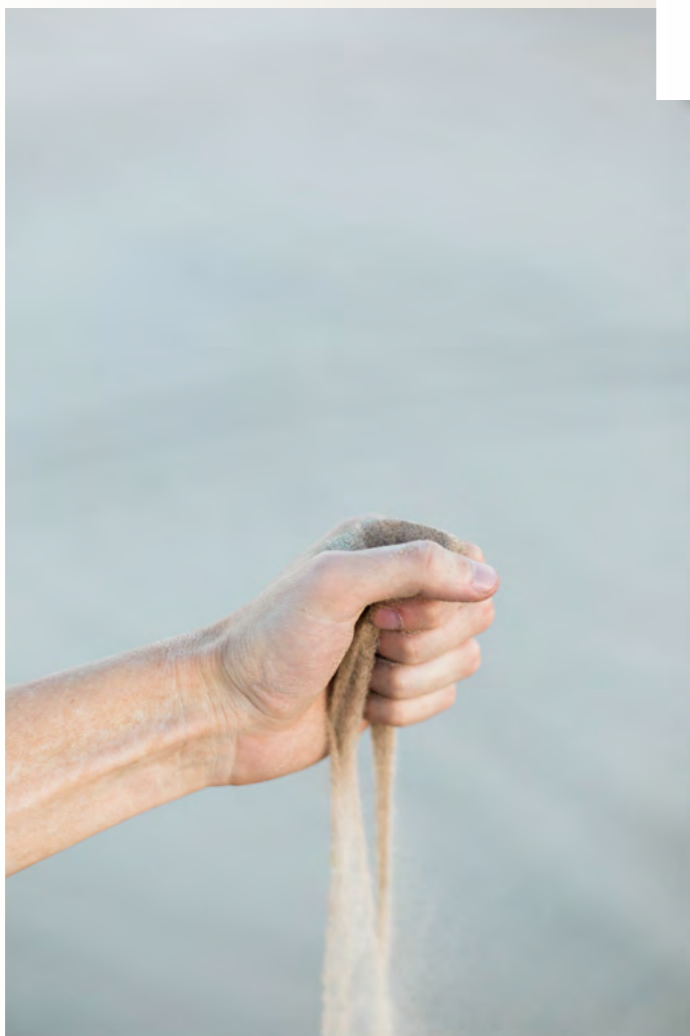

R14001

Transform the look of your walls and the decor of your room with a stunning surface mural. Whether you like the look of concrete, traditional bricks or steel plates, we got it!

SURFACES

Patina

This is a hand-painted wallpaper design giving every room a patinated vintage feeling.

R12711 

Industrial Ivory

Whilst ivory paint has often been the choice of muted, traditional spaces; this wall reveals the aesthetic grace that can be found in the aging process. It's a contemporary twist on a more traditional paint choice.

R14321 

Perspective Manoir

This may be the last image caught of this magnificent inner façade – the walls and floor almost caved in when shooting this photo. The true-to-size windows offer light and a view where there was previously just a plain wall.

R14201 

Wooden Concrete

This concrete surface brings a raw, yet subtle look to your wall.

R15001 

Steel

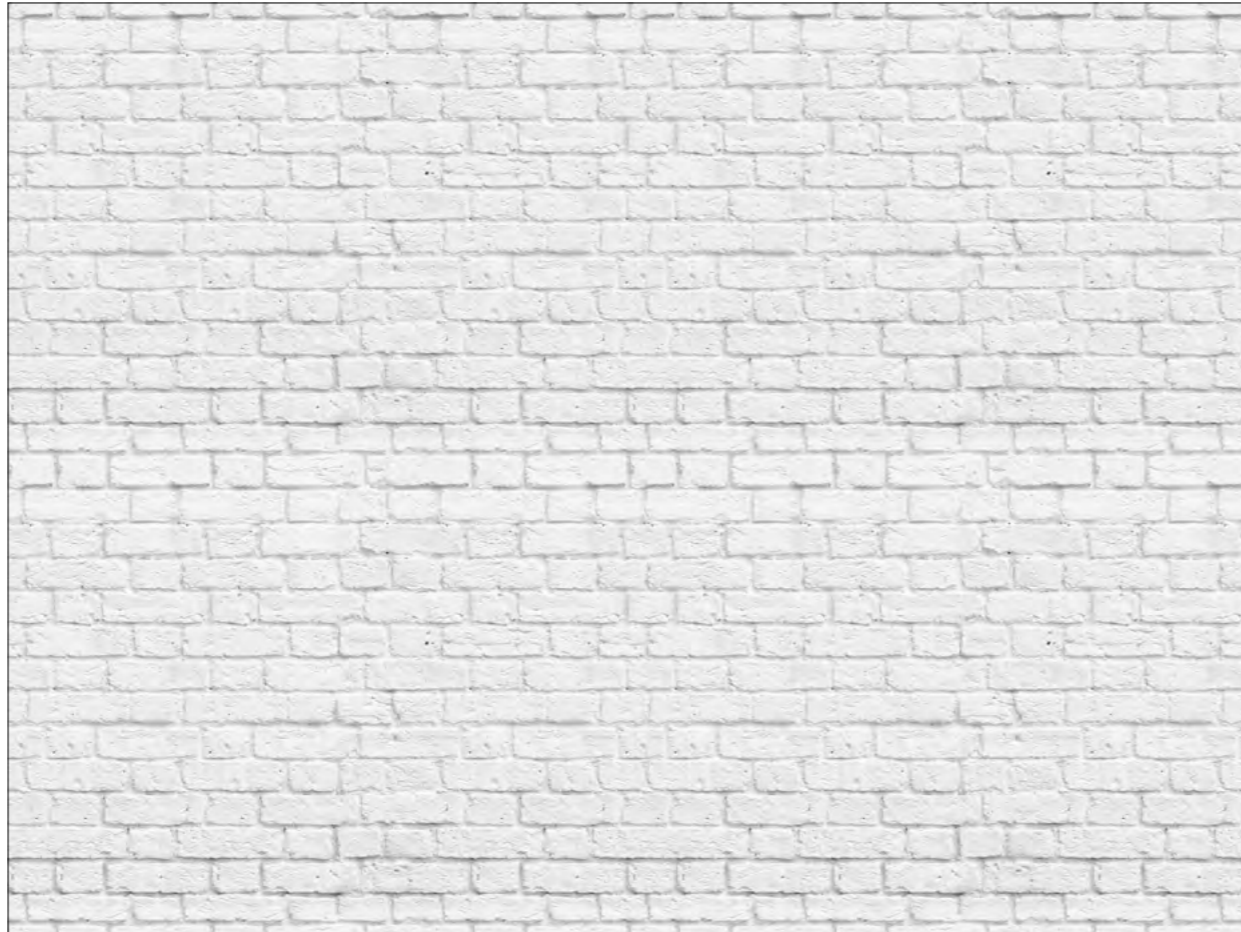

This wallpaper design is picturing scratched, metal clad, steel plates creating a cool industrial image for your home. Its cool facade enhances the contrast between soft and hard, warm and cold. Combined with big soft blankets and pillows it will feel like home. Or keep the cool industrial style if you dare to be edgy.

Battered Wall

This wall exists at our favorite café. When they renovated and stripped the wall off it's layers of wallpaper and paint this beautiful surface emerged. The wall looked so good they kept it the way it is. Since it has become a great source of inspiration to us it was only fitting that we should share it. We booked a photo shoot and the wallpaper Battered Wall came to be. It looks just as nice at the café as it does in a home. Where would you hang it?

HANGING INSTRUCTIONS

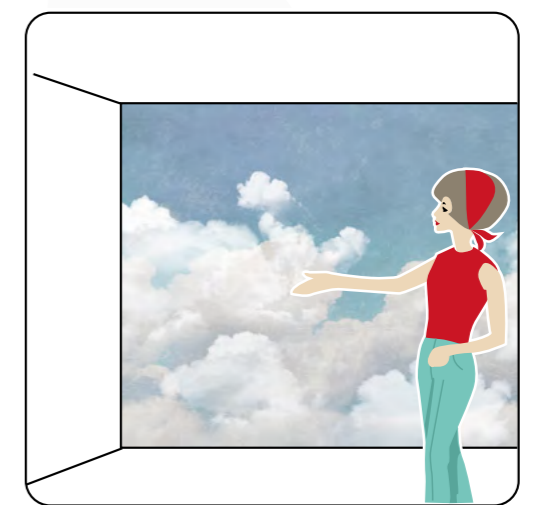

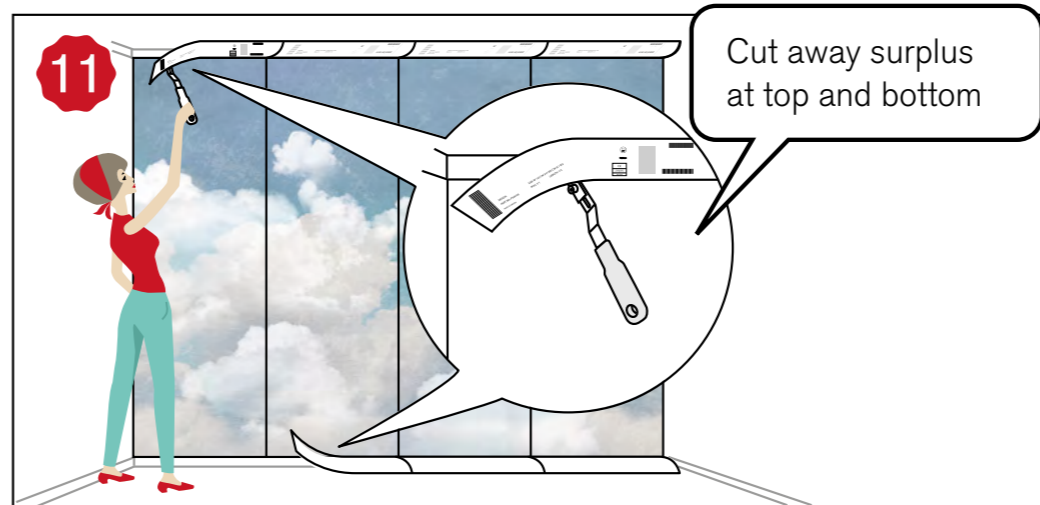

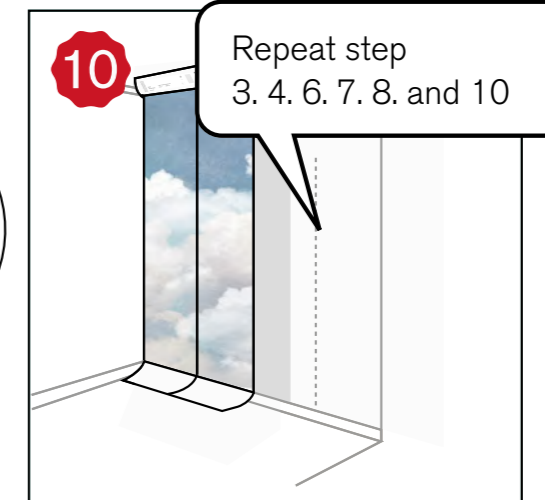

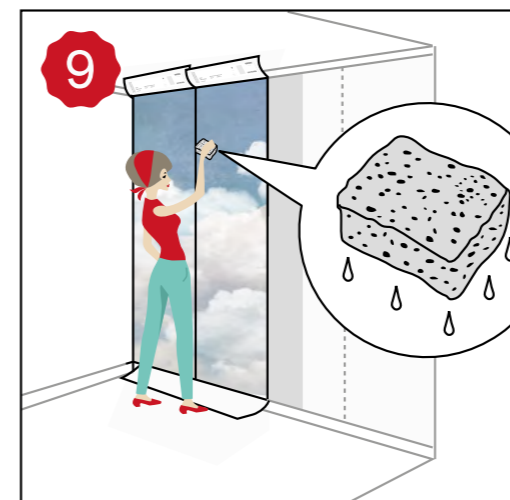

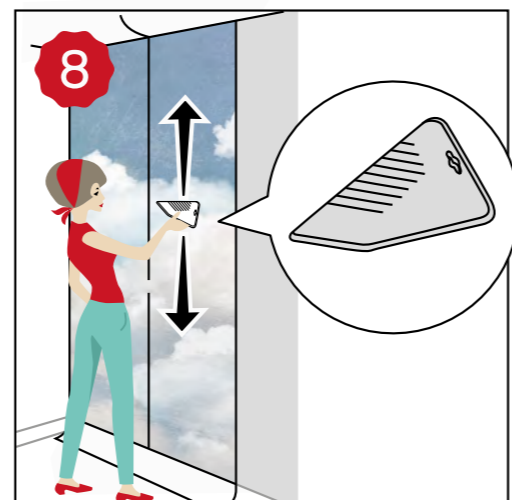

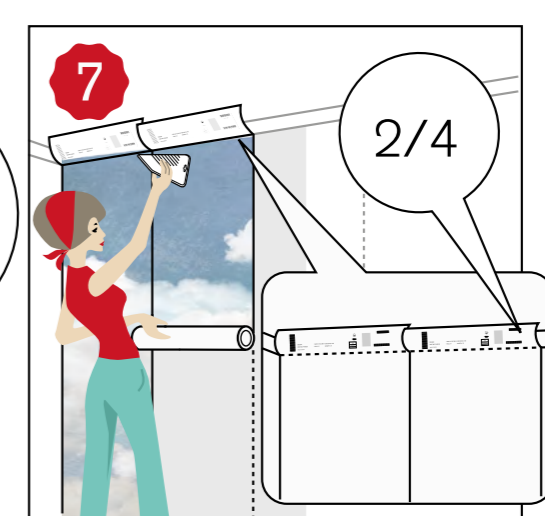

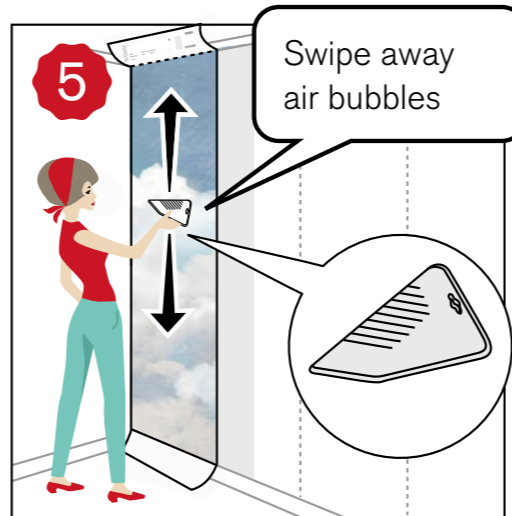

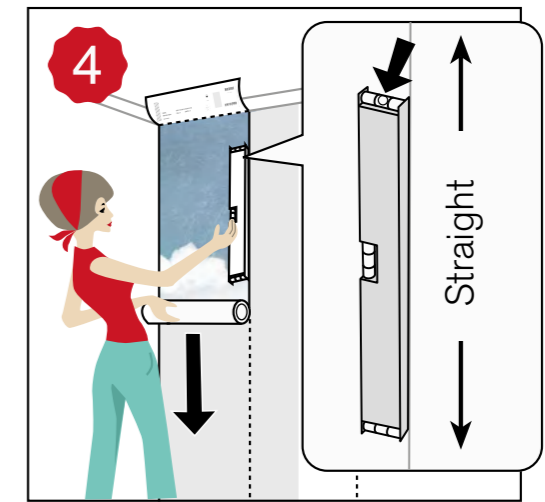

Follow these hanging instructions and your wallpaper will be up in no time!

→|← = STRAIGHT MATCH

45 CM

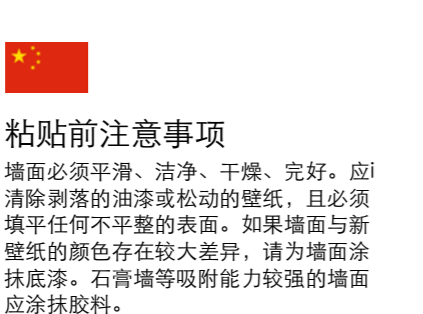

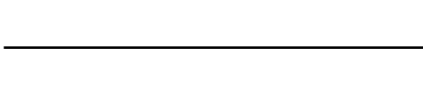

BEFORE YOU BEGIN

The surface of the wall must be smooth, clean, dry and sound. Flaking paint and loose wallpaper should be removed, and any uneven surfaces must be filled. Give the wall a prime coating if its colour is very different to the new wallpaper. Very absorbent surfaces, such as plaster walls, should be sized.

FÖRETAPETSERING

Väggen ska vara slät, ren, torr och väl förankrad. Gammal färg och tapet som inte sitter fast måste tas bort och spacklas över vid behov. Grundmåla om väggen har starka färgskiftningar. Förlimma om underlaget är starkt sugande, som exempelvis en gipsvägg.

DER RICHTIGE KLEISTER

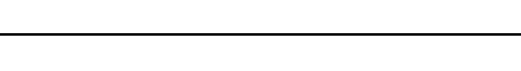

Es ist immer spezieller Kleister für Vliestapeten zu verwenden.

HANGING WALLPAPER 1 → 11

Start by dividing the lengths as indicated by the cutting symbols. Lay the lengths, with the label facing upwards, in numerical order starting with length number 1. Make sure you have all the lengths and that none of them are defective or damaged.

2-10. The lengths are numbered in the order in which they must be hung. The lengths should be hung edge to edge without any overlapping. It is essential that the first length is vertically straight. Tip: Make a pencil mark one wallpaper width along the wall near the ceiling. Hold a plumb line on the mark and draw

MONTERING AV TAPET 1 → 11

Börja med att dela isär väderna enligt skärmarkeringarna. Lagg sedan väderna med etiketten uppåt i nummerordning med våd nr.1 först. Kontrollera att alla våder är med och ingen våd är defekt eller skadad.

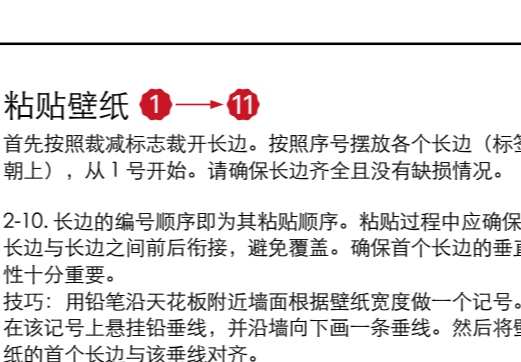

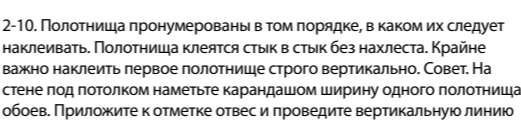

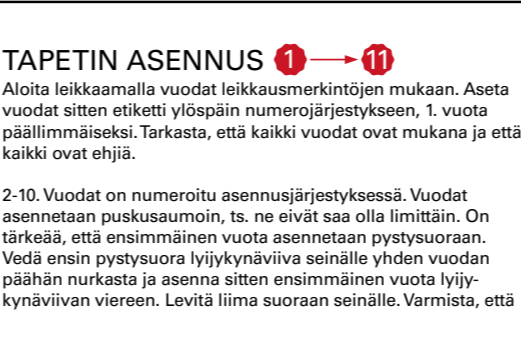

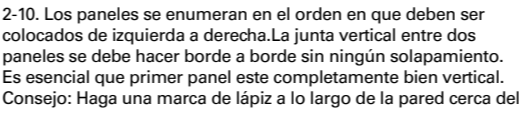

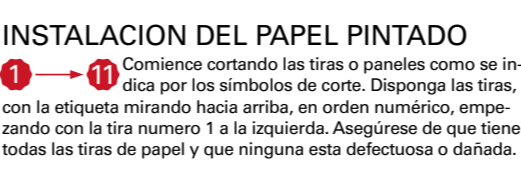

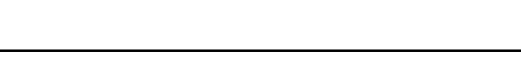

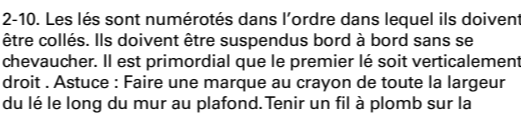

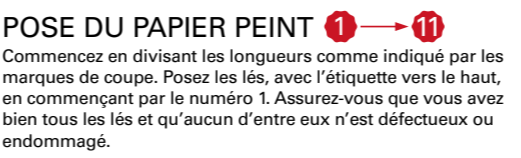

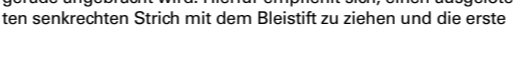

2-10. Alla våder är numererade i den följd de ska monteras. Väderna ska monteras kant i kant vilket innebär att de inte ska överlappas. Det är viktigt att första våden monteras rakt. Tips är att göra ett lodat blyertsstreck, en tapetvåd in på väggen och

ANBRINGUNG DER TAPETE 1 → 11

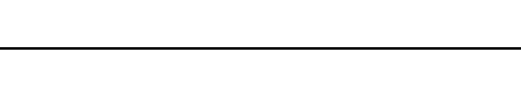

Zunächst die Bahnen den Schnittmarkierungen entsprechend abschneiden. Danach sind sie, beginnend mit Bahn Nr.1, in Nummernreihenfolge mit dem Etikett nach oben auszubreiten. Überprüfen Sie bitte, ob alle Bahnen vorhanden sind und keine beschädigt oder fehlerhaft ist.

2-10. Alle Bahnen sind in der Reihenfolge nummeriert, in der sie anzubringen sind. Sie sind auf Stoß anzubringen, dürfen sich also nicht überlappen. Es ist wichtig, dass die erste Bahn vertikal gerade angebracht wird. Hierfür empfiehlt sich, einen ausgete-ten senkrechten Strich mit dem Bleistift zu ziehen und die erste

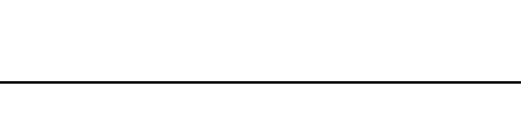

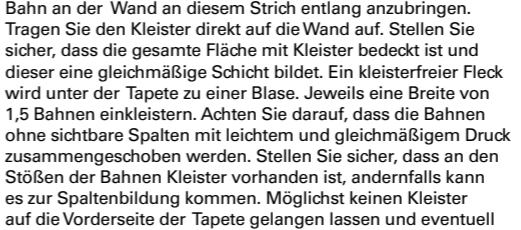

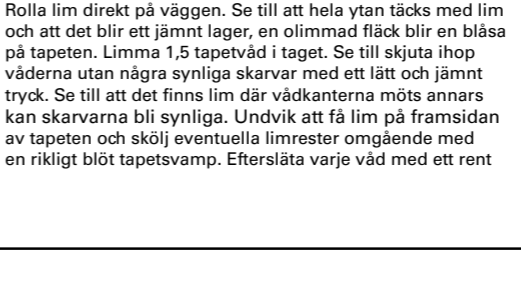

a vertical line down the wall. Then line up your first length of wallpaper with this pencil line.

Roll the paste straight onto the wall. Be sure to evenly cover the entire surface. If you miss a spot, this will cause the wallpaper to bubble. Paste an area the width of one and a half lengths at a time. Gently and evenly press the lengths together to ensure there are no visible seams. Make sure the wall has been pasted where the lengths meet so that the edges are not visible. Try not to get paste on the front of the wallpaper. Any excess paste should be removed immediately using a wet wallpaper sponge.

Appliquez la colle directement sur le mur. Assurez-vous de couvrir uniformément toute la surface. Si vous oubliez une surface quelconque, cela va engendrer des bulles sur le papier peint. Collez une zone de la largeur d'un lé et demi à la fois. Doucement et uniformément, appuyez sur les lées pour s'assurer qu'il n'y a pas de bords visibles. Иначе обои в этом месте будут пузырится. Перед наклеиванием полотнища промажьте клеем область в половину больше его ширины. Приложите полотнище к стене и аккуратно прижмите его к соседнему наклеенному полотнищу так, чтобы шва не было видно. Поверхность стены в месте стыка полотнищ тщательно промазывайте клеем во избежание образования швов. Следите за тем, чтобы клей не попал на лицевую сторону обоев. Его излишки сразу удаляйте влажной губкой.

在墙上直接涂抹一层糝糊。请确保糝糊涂层均匀覆盖整个墙面，如果漏掉某一处，将导致壁纸出现鼓包现象。一次粘贴一个宽边 和半个长边。轻柔均匀地将长边按压在一起，确保无明显接缝。确保壁纸长边与墙面吻合，不会露出墙面边缘。请勿使壁纸正面 沾染糝糊。应使用沾湿的壁纸海绵立即清除多余糝糊。

Smooth each length with a clean wallpaping tool or wallpaper brush. Work from the ceiling to the floor and from the middle out to the edges.

11. När hela tapeten är på plats skär bort överflödig tapet vid golv och tak. Ha alltid vassa blad för att inte trasa sönder tapeten. Vådra rummet 1 1 dygn men håll normal rumstemperatur så limmet torkar.

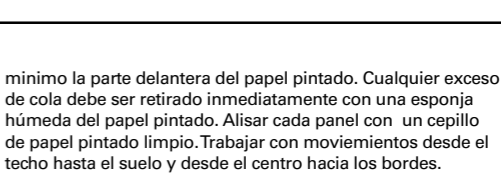

11. Sobald die ganze Tapete angebracht wurde, sind überschüssige Reste an Decke und Fußboden abzuschneiden. Die Klingen müssen immer richtig scharf sein, damit die Tapete nicht zerstört wird. Den Raum 24 Stunden bei normaler Zimmertemperatur lüften, damit der Kleister trocknen kann.

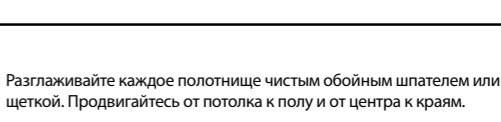

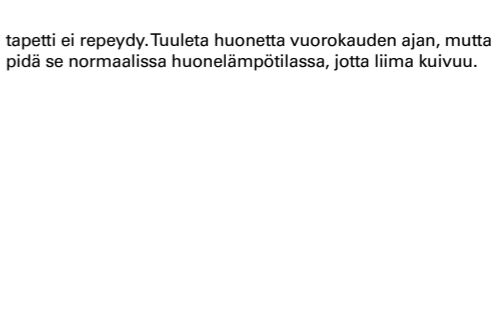

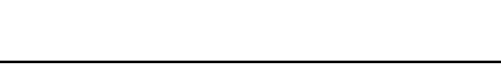

Marouffez chaque lé avec un outil à tapisser propre ou avec une brosse à maroufler. Appliquez le lé du plafond vers le sol et à partir du milieu vers les bords.

11. Une fois l'ensemble du papier peint tapissé, coupez tous les surplus le long du plafond et du plancher. Toujours utiliser une lame tranchante pour éviter de déchirer le papier. Gardez la pièce ventilée et à température ambiante pendant 24 heures pour permettre à la colle de sécher complètement.

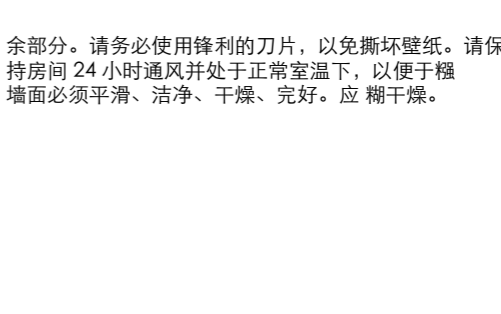

11. Una vez que todo el papel pintado se ha colocado, corte el material sobrante a lo largo del techo y el suelo. Siempre utilice una cuchilla afilada para evitar que se rompa el papel. Mantenga la habitación ventilada y en condiciones normales de temperatura ambiente durante 24 horas para permitir que la cola se seque por completo.

Разглаживайте каждое полотнище чистым обойным шпательем или щеткой. Продвигайтесь от потолка к полу и от центра к краям.

11. После наклеивания всех обоев отрежьте лишнюю длину вдоль пола и потолка. Чтобы бумага не порвалась, делайте это острым ножом. Наклеенные обои должны просохнуть в тенине 24 часов при комнатной температуре и достаточной вентиляции.
