NATURE

Did you hear that buzzing sound? When nature is calling, let's put away our technical devices. The sounds and smells become more prominent, and we find peace surrounded by the beauty of the lush greenery and the rock formations created by the one and only; Mother Nature.

CLIMBING IVY

Hold on tight! This lush dream of a wallpaper is all about ivy. It can climb almost any wall by sending out thin tendrils into tiny cracks while seeking its way upwards. Impressive and so addictive that we want to cover our indoor walls too.

R17191 

HEXAGON LEAVES

Get closer to nature, with this hexagon tile wallpaper, featuring lovely monstera leaves in two shades of green. The graphical fish details add an aquatic touch to stir things up.

R17181 

R14371 **R**

PERSPECTIVE JARDIN

The windows offer a glimpse at progress seeking to overtake the past. Looking out, you can see that man has lost the battle with nature here. This mural will give you depth, view and perspective to a room without a garden view.

R14372 **R**

SHINRIN-YOKU

Shinrin-Yoku is a Japanese term for taking in nature, with all senses. The breathtaking view of this mist-covered forest wall mural works in two ways; an instant stress-reducer and as a daily reminder to visit your nearest natural greenery, for peace of mind.

R17041

VICTORIA'S GARDEN

Let's bring back the 19th century with this fabulous revival of the Victorian era, shall we? The narrative set-up around the water lily pond makes the statues of this wall mural come to life in your living room, restaurant, or hotel lobby.

R17242

SCANDINAVIAN BELLEWOOD

In its original design, our wall mural Bellewood quickly became a favorite among interior designers, but also in private homes. Now, we point our binoculars to a more Scandinavian forest, where tall conifers set the mood.

TRAVEL

Discovering new cultures opens our minds and fills us with inspiration and energy. Yet, opening your window to the world doesn't mean you have to travel. Let the world come to you instead, and create your own one with a little help from the walls in your home.

ANIMAL AVENUE

Who let the animals out? Grace your walls with an animal wallpaper and let the wild animals greet you every day, from the observant monkeys, feral tigers, giant giraffes, and stunning flamingos.

R17171 **R**

R17172 **R**

STILLNESS

Does peace of mind have to come from the inside out, or is it possible to find a sense of calm from the outside in? It is possible. Try placing your body in a comforting and steady position. Lower your shoulders, straighten your back, and close your eyes. Breathe steadily for a few minutes, notice any difference?

R17061 

PERSPECTIVE LA RUE

Could the windows be from Cuba? Cambodia? Columbia? We will keep the location a mystery, but we can assure you they will offer you an alternative outlook when you choose them for your space.

R14221 

LINGERING WALL

Standing in a big city alleyway with visions of passersby, this wallpaper sets a street smart professional on their heels. Reeling with potential, the chalky, raw image says you are taking a contemplative pause. This lingering wall is reminiscent of a spot to reflect in a busy, chaotic world. It adds a sense of relief.

R13531

ARCH DECO

Pastels and contrasting rich colors create a 3D spectacle that suits both commercial and residential spaces. Modern design with antique elements in a grand mix.

RECREATION

Finding it hard to wind down? Creating your very own place for recreation doesn't have to be complicated. We love playing around with small details, soft shapes, soothing colors, and beautifully worn-out surfaces that remind us about the time that has passed.

ASIAN PINES

Hand-painted diffused brushstrokes forming abstract pines will add a sophisticated and minimalistic touch to any room. Fancy scaling it up or down? Or just add more space on top? No problem, our flexible sizing makes this mural suitable for any space.

R16761 

BREATHE

If you want, you can expand your breaths and find a peaceful rhythm by counting to four on each inhale and exhale. Repeat ten times and notice if you feel any difference. Oxygen is essential for all life, including plants. Let the wallpaper "Breathe" give you a reminder to lower your shoulders and take a few mindful deep breaths during the day.

R17051

BALANCE

How do you get a sense of balance in today's fast pace of constant impressions? The answer to that question is probably deeply personal and could be found in self-reflection. One thing is for certain, when the balance is a fact one can do the seemingly impossible. Like how the thin plant stems of this foliage wall mural effortlessly carry the over-dimensional huge plant leaves.

R17001

OPULENCE

The concept of luxury has undergone a transformation in recent years. If before we only saw luxury in material things, we now see it in the simple aspects of everyday life. Being mindful, having a weekly yoga session, or a peaceful skincare routine every evening, can all pass as a luxury in our time. This wallpaper has a unique hand-drawn gold pattern. A wall mural for individuals with an updated view of what luxury is.

HARMONY

Sometimes it just happens, harmony sweeps in, and you're not sure where the feeling came from. Other times, you have to work hard for this rare and wonderful sense of balance. Create a bait for this feeling of harmony with this artistic watercolor wall mural of hand-painted roses.

PASSION

Whether you're a crazy cat lady, love long hikes in the forest, or can spend hours drawing, doing things you're passionate about will give you the energy that will last a lifetime.
Can you add more of what you love into your life?

ASANA

"Asana" describes different positions in a yoga session, two examples are, the restful "Balasana" (Child's Pose) and the erect more vigorous "Vrksasana" (Tree Pose). This abstract wall mural has a dynamic range of color, from seductive apricot pink to sooty black. The artist of this painting has left her mark, adding a human touch in the visible brushstrokes.

R17021

CALM

People thrive with a change of pace. We last longer and feel happier when we alter from the feeling of tension to relaxation, between being active and being completely still. A room, properly decorated, can help create a calming atmosphere. This wall mural with a motif of hand-knotted banana leaves has a soothing color scheme, suitable for a tranquil space.

R17081 

RAKU CRACKLE

This design is meant to be a reminder of the beauty of imperfection created by chance that is always present when nature itself is at work. The evenly spaced random dark crackles construct a graphic line pattern, adding structure to the room but in an earthy dynamic way.

ALICE'S GARDEN

Alice's Adventures in Wonderland was first published in 1865 and has since then been translated into 125 languages and illustrated by over 200 artists. The flipped perspective of views, bodies, and things that alternately get minimized or maximized in size still inspire us.

TIMBER ARCH

Let this beautifully carved wooden arch wallpaper embrace you, whether you're planning to add a historical feel to your home, or opening a trendy coffee shop. The dark timber reminds us about the time that has passed, yet invites the future with its playful pattern.

FAMILY

"Ready or not, here I come!" Your walls are the perfect backdrop when wanting to create an atmosphere where the entire family will love to hang out, play, and tell stories. And best of all, making room for play is just a click away! So let's step up that hide-and-seek game, shall we!

ANIMAL WORLD

Going wild about animals? This world map wall mural features a world map with a selection of wild animals in different regions of the globe. Isn't it grrrrreat?

R17231

R17131 R

RABBIT HOLE

The expression "down the rabbit hole" is taken from the classic children's book *Alice's Adventures in Wonderland* from 1865 and now refers to any portal that leads to a different world, and this wallpaper really does. Make yourself comfortable among the tree trunks and meet the white rabbits, ermines, mountain owls, and white anemones.

R17132 R

AQUATIC LIFE

Change of perspective is good for inspiration. Why not go below the water surface and spend some time in the otherwise inaccessible underwater world? Leopard-patterned eels, dancing squids, angular corals, and shiny algae are all competing for your attention.
